

Tampa Medical Tower

New Procedure for Biohazard Clean-ups

Effective immediately there will be a \$125.00 charge for the cleaning of blood borne pathogens and human fecal matter in your suite. This is because a special cleaning kit is required for each incident.

Each time you call maintenance for a clean-up, we will need to have the attached form signed before we can proceed with the clean-up. This form authorizes Tampa Medical Tower to invoice you for the \$125 charge for that particular incident. Please make several copies of this form so that you will have it handy should you need to call for a clean-up.

Thank you for your cooperation.
